MIGRIP-HDMI-Xm: MIGRIP Friction Locking 1.4 HDMI Cable, M/M Xm

HDMiGrip male-to-male, HDMI v1.4 cables with friction locking connectors.

HDMiGrip Cables are a range of high quality HDMI cables which feature unique 'friction lock' connectors to prevent cable becoming loose or falling out of an AV device's socket.

These unique friction lock HDMI connectors are fully compatible with standard HDMI sockets, but feature additional spring latch points as part of the plug which hold them firmly in place within the socket, preventing faulty or loose connections and saving service engineer costs and downtime.

The HDMiGrip cable connector holds securely in place, but will detach simply by pulling the connector out (without the need for pressing / releasing any locking switches or buttons). MiGrip connectors provide an 'un-mating force' of almost double that of standard HDMI connectors (requiring 3.8 kg of force to un-mate, compared with 1.96kgf from standard HDMI).

Order Codes:

- MIGRIP-HDMI-0.5M MiGrip Locking HDMI - 0.5m
- MIGRIP-HDMI-1M MiGrip Locking HDMI - 1m
- MIGRIP-HDMI-3M MiGrip Locking HDMI - 3m
- MIGRIP-HDMI-5M MiGrip Locking HDMI - 5m

Features:

- Unique friction locking HDMI connectors for secure connectivity
- Prevents loose / faulty connections
- 0.5 metre cable
- Male-to-Male connectors
- HDMI v1.4 compatible
- Gold-plated connectors
- Compatible with standard HDMI sockets (no special HDMI socket required for friction locking)

Specifications:

Model:	MIGRIP-HDMI-Xm
Connectors	Friction Locking HDMI v1.4
Un-mating Force	3.8 kg of force (compared with 1.96kgf standard HDMI plug)
Gender	Male-to-Male
Cable Length	0.5 metre
Colour	Black
Weight (Net)	0.10kg
Weight (Gross)	0.10kg
