

Belkin C100 Notebook Security Lock

Part # F8E503ea

The Belkin Model C100 Combo Notebook Security Cable features a unique and patented locking system that secures any notebook in seconds. Simply loop the cable around any immovable object and attach the lock to the security slot on most notebooks, docking stations and flat screen monitors for effective visual and physical theft deterrence.

The C100 lock features our exclusive press-to-lock feature that makes installation easy. Simply press the lock into the notebook security slot. Unlike other cumbersome locks, the C100 doesn't require keys or two hands to secure the lock. The 3 digit combination lock is user resettable. No keys to lose or replace.

Each C100 Notebook Lock comes with a 1.8m aircraft grade steel cable and includes a nylon carrying bag, and anchor plate with two screws for additional locking options.

Advantages :

- Convenient User resettable Combination Lock for keyless Operation
- Exclusive Press-To-Lock Feature
- 1.8m Aircraft Grade Steel Cable
- Lifetime Warranty
- Effective Physical and Visual theft deterrence
