Product Description

This LED GLS light bulb produces 806 lumens output, Philips GLS LED Spot Lamp A55 shape is an ideal LED retrofit solution for many applications (see the applications tab for more information).

These energy saving  bulbs deliver a glow effect for a welcoming, warm atmosphere and its unique design radiates warm light in all directions, making it a true LED alternative to incandescent lamps.

 bulbs are ideal for general lighting applications  particularly suited to public areas such as obbies,

corridors, stairwells, where the light is always on.

Compatible with existing fixtures with E27 holder and designed for retrofit replacement of a range of incandescent wattages, Philips CorePro LED bulbs deliver huge energy savings and minimise maintenance cost without any compromise on light quality. It can be used together with most leading edge dimmers, enabling further efficiencies that will help hospitality owners recoup their investment within one year.
