

RS Light weight nylon glove

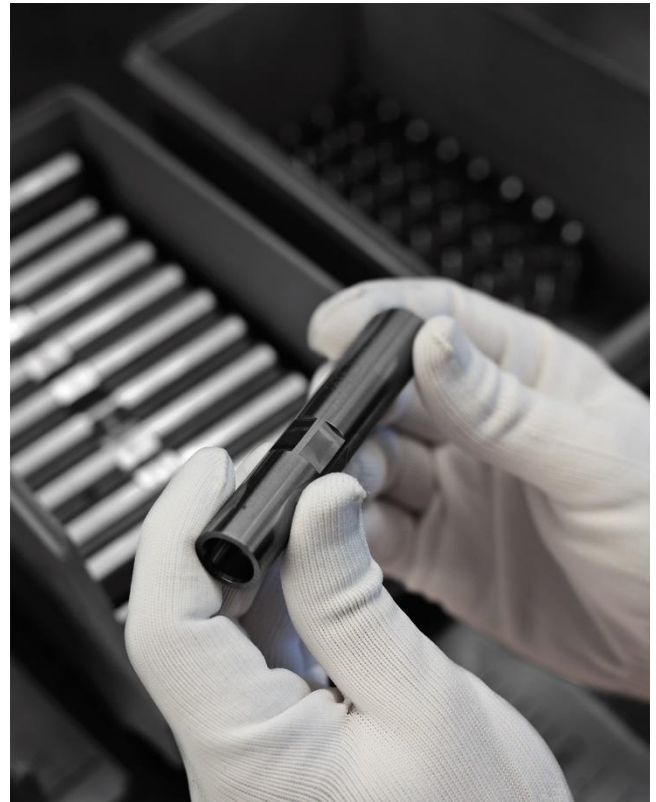

ENGLISH

A seamless knitted stretch nylon inspection glove. The white knitted stretch nylon shell of the glove provides a close fit with excellent dexterity and handling ability. Seamless and breathable, it prevents irritation during long periods of wear and extends to form an elasticated knit wrist providing a secure fit and keeping the hands free of dust and debris. Low linting to reduce the risk of product contamination, the glove is the ideal choice for inspection and light assembly applications.

Typically used for:

- Electronics
- General Assembly
