FN2200-2300-99	FN2200B-2300-99	

Description of change:

1. Warning label "hot surface" added on label due to upgraded IEC 60939-3 standard.
2. The ENEC certification body changed the interpretation of the new IEC60939-3 filter standard, therefore the ENEC rated DC voltage need to be changed from 850VDC to 600VDC. The voltage indication on the label is now the same for ENEC and UL.

Identification:

1. A "hot surface" warning.

2. ENEC voltage indication

Introduction date:

01.12.2016

Quality assurance measures:

All Schaffner entities involved in this change act according to the rigorous processes defined under the ISO 9001:2008 program, or exceeding Schaffner standards for outstanding quality.

Questions and feedback:

For questions and feedback regarding the change described above, please get in touch with your local Schaffner office or authorized Schaffner representative.

Issued by:

Schaffner Group
Product Management
Division EMC
