

COMPATIBILITY LIST

Use with Xpelair fan models:

- CX10
- CMF ceiling mounted fan models
- DX100/100LV, DX200, DX400
- GX6, GX9, GX12
- PX6, PX9, PX12
- RX6, RX9, RX12
- WX6, WX9, WX12
- XIL Inline fan models

DT20B – Single Fan Timer Delay Controller

Ref. 21850AW

RS Controller Code: 425-3107

Usually connected to the lighting circuit; so fan switches on/off with the light. Provides continued ventilation run-on period after the light has been switched Off. Controls one individual fan (see compatibility list above).

- Controls timing on one fan only
- Adjustable run-on from 30 seconds to 20 minutes
- 'Power on' (fan running) neon indicator light
- Gloss white finish
- Dimensions: (W)100 x (H)86 x (D)45mm
- Surface or recess mounting
- Supply voltage 220-240V AC - 50Hz
- Amp inductive load 2.5A @ 240V AC

*Rotary Control
for Timer Adjustment*
