

Van & Truck Kit

Van & Truck Kit

The Van and Truck Kit contains the HSE recommended first aid components for employees travelling from their office/depot, with additional content. Suitable for all vans and trucks. The kit can be located onto the existing green box bracket or installed with the new secure fitting bracket as supplied. ACOP 3(20), Employers are responsible for meeting the first aid needs of their employees working away from the main site, for example those who travel regularly or who work elsewhere. The assessment should determine whether those who travel long distances or are continuously mobile should carry a personal first aid kit.
