Adhesive Hazard Tapes

7967357

7967351

7967360

Description:

Made from polyvinyl chloride (PVC) backing material, coated with rubber pressure-sensitive Adhesive.

Adheres firmly, removes easily.

Moisture / weather and chemical resistant.

Application:

Indoors or out, our adhesive hazard tapes are ideal for marking floors, walls and overhead.

Abrasion resistant and damp tolerant.

Available in Red/White, Black/Yellow, Green/White.

**Technical Characteristics:**

Construction	PVC
Adhesive type	Acrylic
Thickness (mm)	$\geq 0.15 \pm 0.01$
Peeling strength (N/25mm)	≥ 1.8
Persistent adhesion (Min)	≥ 10
Tensile strength (N/10mm)	≥ 15
Elongation (%)	≥ 100
Service Temperature	-10°C to 80°C

Available Sizes:

Width (mm)	50
Length (M)	33
Core (mm)	76

Conditions:

Store in a clean, dry and ventilated area.

Storage temperature between 0°C and +30°C.

Under these conditions, the shelf life will be a minimum of 18 months.
