

KNIVES AND BLADES

Stanley's biggest ever range including the longest lasting and sharpest application specific blades

 Fixed Blade Knives	91
 Retractable Blade Knives	97
 Snap-Off Blade Knives	102
 Craft, Sport, Pocket Knives & Window Scraper	113
 Others	115

HOW TO CHOOSE

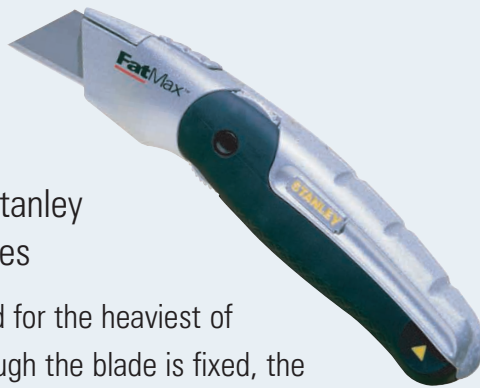

THE BEST KNIFE TO SUIT YOUR NEEDS

The originators of the famous 'Stanley knife' now offer the most comprehensive range with fixed, retractable and snap-off blades; knives that provide innovative features to meet the demands of the professional builder and craftsman.

Fixed blade knives

Suitable for all Stanley replaceable blades

These are designed for the heaviest of applications. Although the blade is fixed, the majority of Stanley knives incorporate a rapid blade changing mechanism.

Retractable blade knives

Suitable for the majority of the replaceable blades

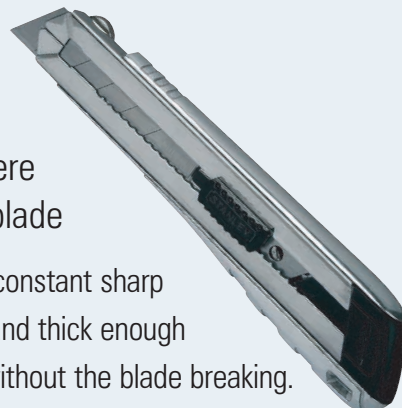

These offer similar performance to the fixed blade models and the blade can be retracted safely into the handle when not in use.

Snap-off blade knives

Ideal in situations where residue sticks to the blade

The snap-off blade offers constant sharp edges, but is also strong and thick enough to apply heavy pressure without the blade breaking. A range of application specific blades is also available.

9mm Snap-off blade knives

Ideal for cutting thin sheet materials

The thinner 9mm Snap-off blade is ideal for thinner more delicate sheet materials and general craft work.

Craft, Sports and Pocket Knives

A great new extended range

Handy pocket, craft and sports knives ideal for a wide variety of tasks.

The best blade to suit your needs

In addition to the general purpose blades supplied with each Stanley knife, a new range of application specific blades is also available.

These new blades are engineered to achieve even better and longer lasting cutting performance for their specific application.

FatMax® XL™ Fixed Blade Knife

- Supplied with 10 heavy duty blades
- Heavy Duty Rounded End - Can be used to tap in nail heads
- Temperature tested - 65o F to 180o F (-55o C to 80o C)
- Brass wheel blade lock for positive blade lock
- Drop Tested - Robust / strong product dropped from 1.8m
- Blade dispenser included - Convenient – 10 blades available – dispensers from rear of knife
- Spring loaded opening - Fast blade change & no chance of losing the top cover
- Resistant to Gasoline, Lacquer, Thinner, Turpentine, Lestoil, Alcohol, Mineral Spirits, Diesel
- Blade Changing - 30 seconds for Titan but only 15 seconds for XL
- Die cast aluminium housing for strength and durability
- No tools required for blade changing for speed of use
- Magnetic nose holds the blade in place while it's being changed
- Holds up to 15 blades for less refill time
- Twice as big as Stanley knife allowing work with gloved hands
