Extension tubes for float switches

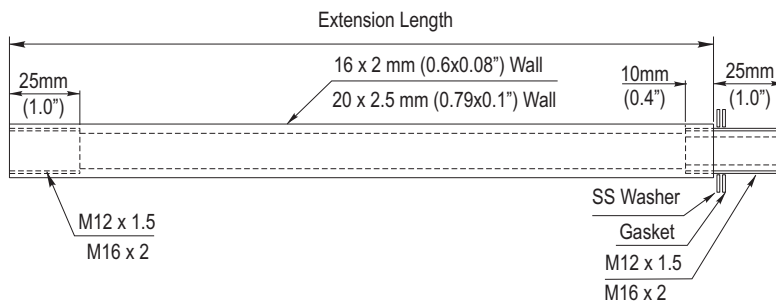

A range of extension tubes available in Polypropylene or Stainless Steel (316L grade), which extend the reach of the various vertical float switches.

The Polypropylene tubes, with either M12 or M16 threads, are intended for use with our plastic types of float switches and are available in 250mm, 500mm and 750mm lengths.

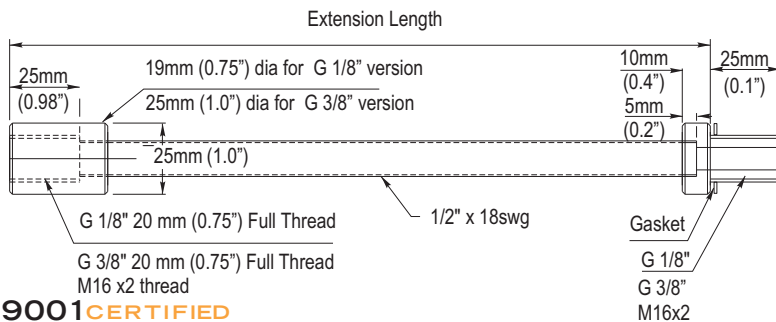

Stainless steel extension tubes, with either 1/8BSP (G1/8), 3/8BSP (G3/8) or M16 threads, are intended for use with our stainless steel float switches and are available in lengths from 250mm to 1000mm.
