

RS Men's Light weight cotton glove

ENGLISH

The Light weight cotton glove is a general use polycotton glove. This minimal risk glove is made from a soft polycotton material making it extremely comfortable. It is die cut to ensure consistency of size and has a knitted wrist which helps to keep hands free of dust and debris. It is ideal for light general tasks providing protection from dirt and scratches, and offers exceptional value for money.

Typically used for:

- General Handling
