

## ABUS Security Chain

### ABUS Security Chains

ABUS offer a comprehensive range of through hardened steel Security Chains. From a lightweight 5mm to a maximum security 11mm hexagonal link Chain with an extended link designed to secure a Close Shackle Padlock. ABUS Chains are available in a full range of sizes to meet almost any security need.

- Through hardened Chain.
- Strong welded links.
- 5 sizes of link.
- Many convenient lengths available.
- Corrosion resistant finishes.
- Chain enclosed in protective vinyl sleeve.

### Maximum 11mm Security.

The ABUS 7239CS through hardened Security Chain offers maximum resistance to all forms of physical attack. With hexagonal links, the 7239CS is ideal for use in high security situations.

**7239CS** – with extended end link, available in three lengths – 1050, 1400 and 2000mm

### Superior 10mm Security.

With a corrosion resistant black powdered finish, the 7231H is constructed from hardened to the core special alloy.

**7239** – available in two lengths – 1050 and 1200mm.

### Quality Security Chain.

ABUS offer a complete range of top quality, through hardened steel Security Chains.

The standard range is available in three link sizes, up to 2m in length.

**7231H** – 9mm links, available in four lengths: – 650, 100, 1200 and 2000mm

**7235H** – 7mm links, available in three lengths: – 900, 1200 and 2000mm

**7233H** – 5mm links, available in two lengths: – 600 and 1000mm
