

Double DIP II Sockets

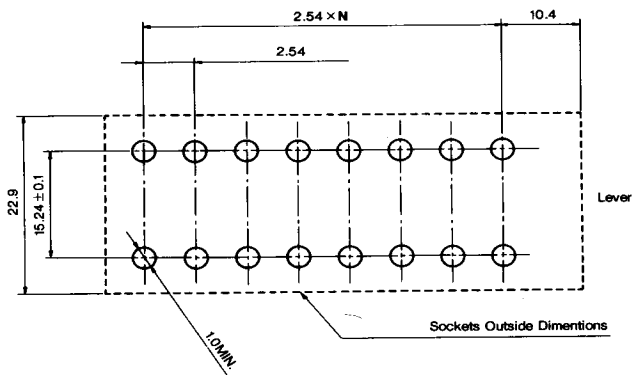

Unique new 24, 32 and 40 lead sockets are the latest addition to the Textool ZIP DIP line. The wide entry design of this socket lets it accept DIP type packages ranging from 300 to 600 mil wide. It can also be used with existing 24, 32 and 40 lead receptacles. As with other sockets in the ZIP DIP line, these sockets are designed for zero pressure during insertion and extraction.

● Socket Dimensions

PC Board Hole Patterns For Sockets

Leads	Part Number	A	B	N
24	224-1286-00-0602J	45.0	40.9	11
32	232-1287-00-0602J	55.3	51.1	15
40	240-1288-00-0602J	65.5	61.2	19
