SE1T

Technical Specification

Compact and Low Cost Ultra Violet EPROM Eraser

- Smallest Stag U-V Eraser
- Capacity for up to six 24/28/32-pin DIP devices or four 40-pin DIP devices
- Adjustable timer: 0-60 mins
- Anti-static foam lined device drawer
- Power indicator lamp
- Safety interlock on drawer prevents accidental exposure to U-V light
- Robust and light proof plastic casing

The SE1T is designed specifically for those who only need to erase EPROMs in low volumes.

It has the capacity to simultaneously erase up to six devices (24, 28 or 32-pin DIP) and its high output tube ensures that complete erasure of the devices is achieved in the least possible time.

The exposure time is simply set on the mechanical timer and erasure commences as soon as the drawer is closed.

Opening of the drawer during erasure will automatically extinguish the tube to prevent accidental exposure to U-V light.

Specification:	
No. of Tubes:	One
Wavelength:	253.7nm
U-V Intensity:	9mW/cm ² (nominal)
Timer:	Mechanical, 0-60 minutes
Weight:	1144 gms (0.52 lbs)
Dimensions:	137mm x 212mm x 73mm (5.4" x 8.35" x 2.87")
Drawer Area:	50.5mm x 135mm (1.99" x 5.32")
Erase Area:	45mm x 105mm (1.77" x 4.13")
Fuse Rating:	1A
Spares	
Starter	610 002
Tube	610 005

Leaders in innovation

For two decades Stag has been at the forefront of design and manufacture of high quality and reliable device programmers.

Today Stag Programmers carry forward this reputation in products ranging from Universal, Gang and In-Circuit Programmers to PLD Compilers and UV Erasers – and now hand-held and portable programmers.

We are dedicated to continuous research and development to maintain our lead in both product and software support so that our customers can keep pace with rapidly changing programmable device technology.
