

COBA Guard Carpet Protector

COBA Guard Carpet Protector is a flame retardant self-adhesive carpet protection film that has been designed specifically for use on carpet. The film is reverse wound on the roll meaning that it can be laid rapidly by hand for small rooms and staircases, or with the COBA Guard Applicator for larger areas. COBA Guard lies flat – reducing the risk of tripping. Floors are left pristine as the film peels off leaving no residue.

- Ideal for protection when painting and decorating
- Also used when maintenance work is carried out to avoid a soiled floor
- Protects newly laid carpet when further building work is required
