Double Sided Foam Tape

RS Stock number [512-856](#)

Description:

A medium performance, industrial grade foam tape, coated both sides with a high-tack acrylic adhesive. Suited to bonding all common high-energy surfaces such as metals, glass, rubbers and plastics. The soft ductile foam core allows for permanent bonding of slightly irregular substrates. High tack, quick grab adhesive. The foam backing and acrylic adhesive combination provides a full air, dust and water seal while dampening vibration and noise.

Specifications:

Length: 150 mm
Thickness: 0.8 mm
Width: 12 mm
Backing Material: Foam
