

Making Things Talk, 2nd Edition Using Sensors, Networks, and Arduino to see, hear, and feel your world

By Tom Igoe September 2011

Pages: 496

Make microcontrollers, PCs, servers, and smartphones talk to each other.

Building electronic projects that interact with the physical world is good fun. But when the devices you've built start to talk to each other, things really get interesting. With 33 easy-to-build projects, Making Things Talk shows you how to get your gadgets to communicate with you and your environment. It
