Micro Switches

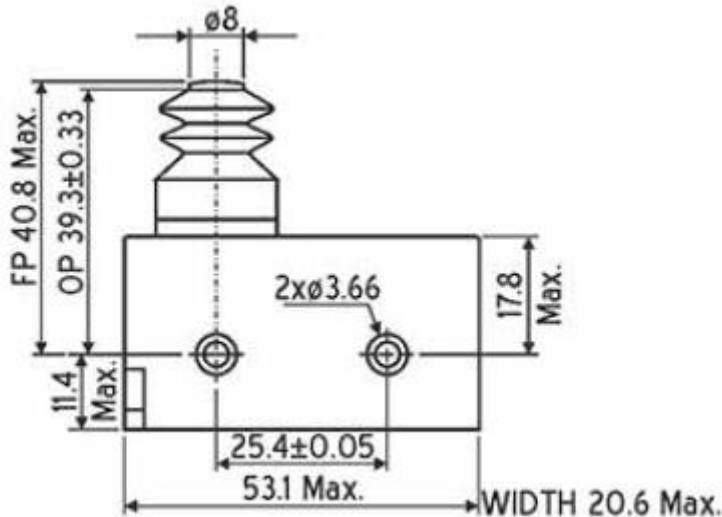

RS Stock number 797-2501

Specifications:

Actuating Force:	723gms (max.)
Release Force:	170gms (max.)
Pretravel:	1.5mm (max.)
Overtravel:	4.6mm
Movement Differential:	0.08mm (max.)
Salient Features:	Spring plunger actuator protected by a synthetic rubber cowl
Enclosure:	IP54

Dimensions-mm:

Characteristics:

- Single pole changeover, snap-acting switches.
- Fine silver contacts.
- Beryllium copper trident spring operating mechanism.
- Metallic casing of robust construction.
- Protection against physical violence, dusty atmosphere & accidental splashing.
- M3 Screw terminals are located in 3.96mm. Wide wiring channels protected by a removable, insulated cover plate.
- Conform to IEC 1058-1 Standard.
