

Security Tech Germany

41/30mm ETERNA Laminated Steel Padlocks

- Individually plated laminated steel : Up to 40 years weather protection
- Pin tumbler cylinder with anti-pick mushroom pins : Resists picking
- Hardened steel shackle on 30mm : Through hardened steel alloy 40mm & above
- Keyed to differ (KD) plus numerous KA/MK suites available : Multiple site security
- Long shackle (HB) versions available : For most security needs
- Hardened keyway protection : Resists drilling & pulling attacks

41/30 Laminated Padlock with 100/100 Hasp & Staple

At last a laminated steel padlock that does not rust Eterna plating - another strength & corrosion solution from ABUS

- Each laminated steel plate is individually coated in the new ETERNA treatment process
- ETERNA treatment offers 13 times more corrosion protection than normal zinc plating
- Salt bath tests give the equivalent of 40 years of weather protection
- 180 hours in a salt water bath will kill most padlocks, but not the new 41 ETERNA - it worked perfectly

RH4/5 Keying System

RH 4/5 Keying system allows a whole range of ABUS padlocks to be incorporated in a single Keyed Alike (KA) or Master Keyed (MK) suite

Padlocks can be supplied assembled or keyed by locksmiths to their exact requirements

41/30

Keyed Alike version available - ex stock

Other Keyed Alike & Master Keyed versions available to special order
