

**Instructions for 3X Sliding Pocket Magnifier
Product 6261 and Coloured Variants**

The lens of this product is manufactured from Crystal Polystyrene. The case should remain closed when not in use to prevent damage occurring to the lens surface.

If the lens surface becomes marked it should be cleaned using a soft cloth moistened with warm water in which a small amount of household detergent has been added. Do not use alcohol or other cleaning agents as these may damage the lens surface.

This product is manufactured to meet the classification of Grade A BS7522:Part 1:1992. The zone of optical compliance for this product is 27mm. This magnifier weighs 21 grammes.

FIRE RISK. DO NOT LEAVE IN DIRECT SUNLIGHT

CAUTION. NOT DROP RESISTANT
