

Granite 5[®] Sleeves

Ultimate cut & tear resistance
in a comfortable sleeve

Granite 5[®] Sleeve is an extremely comfortable cut resistant seamless knitted sleeve. It is made with a soft yarn that offers a level of comfort not previously associated with level 5 cut resistance. Granite 5[®] Sleeve is available in two styles; a loose fitting sleeve elasticated at both ends to ensure that it remains securely in place; and a close fitting sleeve with a thumb slot that ensures the sleeve will not slip exposing the wrist or arm. The fitted sleeve is available in two lengths for when extra protection to the upper arm is needed, and is heat resistant, tested to level 1 (up to 100°C) for contact heat according to EN407. The excellent protective qualities of this sleeve make it an ideal companion to any cut resistant glove when additional protection to the arm is required.

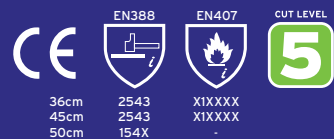

Typically used for:

- Glazing
- Steel Handling
- Automotive Manufacturing

Case Quantity:

24 sleeves per polybag
96 sleeves per case

Size	Code
