

Desktop Power Center Work Surface Portal

WSC

Wiremold Desktop Power Center is a solution for providing power access at desks and other work surfaces. The innovative desk power outlet utilizes the existing cord drop openings in current office desks and workspace table tops. Also provided is an alternative, easy to install mounting method which latches onto the side of a desk or table top. The Desktop Power Center is also available with USB power charging portals.

features & benefits

- **Add power where needed.** Brings access to power up to the work surface.
- **Two Models Available.**
 - WSC400-S: Work surface portal with four surge protected 15 Amp power outlets.
 - WSC320-S: Work surface portal with three surge protected 15 Amp power outlets and two USB charging outlets.
- **Ideal for desk or work table.** Included edge clamp or hole mounting hardware provide everything you need to install the unit to any work surface.
- **Accommodates round hole openings from 1 ½" to 3".** Unit accommodates a range of available standard openings to provide more installation flexibility.
- **6' power cord.** Provides increased flexibility by extending access to power sources.
- **Surge protection built-in.** No need to install an additional power management component.
