## Pen-Style Control Cabinet Key with voltage detector

for all standard cabinets and shut-off systems

- easy to carry pen-style control cabinet key with fastening clip
- contactless detection of alternating current with optical indication (red LED); range of voltage 50 - 600 V; frequency range 50 - 60 Hz
- contactless detection of magnetic fields with optical indication (green LED)
- start button
- battery saving automatic switch-off. The device switches off automatically after 2 minutes not in use.
- indicated by means of a bright LED: start-up self test, battery control and live conductor close-by
- battery case with bayonet catch
- four different key profiles can be utilised by swivelling the key holder
- for control cabinets and shut-off systems in the supply of gas, water and electricity
- for technical installations in buildings, e.g. air conditioning and ventilation systems, shut-off valves, mains switchboards, etc.
- universal 1/4" bit adapter for standard bits (permanent magnet for retaining)
- additional bit adapter for 1/4" bits inside one key profile
- with a reversible bit: cross recess PH / slot 7.0 x 1.2 mm
- tool body: plastic, fibreglass-reinforced
- key profiles: zinc die-casted

<b>Article No.</b>	00 11 17
<b>EAN</b>	4003773068396
<b>Capacity square mm</b>	6 / 8
<b>Capacity double-bit key mm</b>	3 - 5
<b>Capacity triangular mm</b>	9
<b>Length mm</b>	155
<b>Net weight g</b>	136

*technical change and errors excepted*
