- Print speed 10mm/second
- Up to 18mm print height/24mm tape width
- TZ and AL Tape

USB UNIVERSAL SERIAL BUS

TZ TAPE
6-24 mm

AL TAPE
24 mm

With its own versatile software, on-screen text editing and USB connectability, the P-touch 2420PC offers a quick and easy way of organising your working environment. Featuring easy to use drag and drop operation and automatic text formatting, it lets you produce professional high quality labels in seconds.

Compatibility

The PT-2420PC is supplied with two versions of P-touch editing software. Included as standard with all PC compatible machines, P-touch Editor enables the user to format and edit information for many labelling applications.

In addition new P-touch Quick Editor enables the user to make perfect labels instantly. The software automatically formats selected text in other open applications to fit the label size* that is currently being used in the PT-2420PC creating labels ready for printing with no further editing required.

With USB connection and revolutionary new software this P-touch model offers a unique, quick and easy solution to meet your office labelling requirements.

* Automatic tape width monitor Windows® software only

Select text on screen, drag and drop into software.

P-touch Quick Editor V1.0 automatically formats text to label.

Label options

Tapes for use with the 2420PC model include 5 widths of tape varying from 6 to 24mm and 23 tape colour options including fluorescent, transparent, laminated, non-laminated and NEW 24mm paper label. With the tape combinations available, the 2420PC can create durable self-adhesive labels which solve all your office identification needs.

* 24mm Paper label only available in 7m length. All other Brother TZ-tapes are 8m as standard.

Fonts and Graphics

In addition to the fonts supplied with P-touch Editor, both versions of software allow you to use all TrueType fonts already installed in your computer.

With a resolution of 180 dpi the P-touch 2420PC prints labels with graphics at a high quality.

Using P-touch Quick Editor mixed with the 2420PC's ability to print up to 10 lines of text, a print speed of 10mm/second and a print height of 18.1mm you have the convenience of producing address labels and similar formats of labels instantly from your desktop.

Durable Labelling

Brother's unique, patented laminated TZ Tapes are designed to be extra hard wearing. They can withstand heavy abrasion, electricity and lengthy exposure to chemicals, sunlight, water and extreme temperatures.
