

Datasheet

Direct Coupling Centrifugal Pump, 10L/min, 24 V

RS Stock number 817-0807

RS Miniature High Flow Pumps

High flow miniature pumps for use with liquids. Manufactured from CNC machined alloy with stainless steel connections. centrifugal brushless design using a independent motor controller. Inline connection and submersible versions available to suit different applications.

Designed for 8mm Tubing

10 l/m flow rate

102g weight

Quiet operation

Dimensions: 64 x 32 x 31mm

Sealed waterproof body (IP67)
