## DATA SHEET

### Label Remover RS 251-3665

RS 251-3665 has been specially formulated for the quick and efficient removal of paper based pressure sensitive adhesive labels. 251-3665 is 100% Ozone Friendly.

- Non-CFC, non-halogenated solvent which will not attack Ozone Layer.
- Allows label to be simply peeled off without leaving adhesive residue or scratching surface.
- Harmless to most plastics, rubbers, elastomers, and surface coatings when used as directed. Test sensitive plastics on a small area first, and do not use on polystyrene.

#### Typical Properties

Specific Gravity @ 20°C:	0.83g/ml
Residue on Evaporation:	<1ppm

#### Packaging

12ml Pen (Pack of 5 Pens)

#### Order Code

RS 251-3665

#### Directions for Use

RS 251-3665 is suitable for the removal of pressure sensitive adhesive labels from a variety of surfaces. The product contains combustible solvent so should not be applied onto live electrical equipment or other sources of ignition.

RS 251-3665 should be wiped onto the label to be removed, and left for 5 minutes. After this time the label should peel off and the surface can be wiped clean.
