

Dow Corning®

DIY

Silicone Bath & Kitchen Seal

A flexible silicone sealant specifically designed for the sealing of sanitary fittings and kitchen units. It is a one-component product that gives excellent adhesion to most non-porous surfaces.

- **Contains a fungicide to resist mould growth**
- **Gives a water resistant seal**
- **Flexible - will withstand significant movement**
- **Available in white, clear, ivory, and soft cream in 310ml cartridges and white, clear, and ivory in 78gm injector packs**
