

## Logitech® MX™300 Optical Mouse

PS/2 • USB • Optical • Mac • PC

Part Number 930762-0914

### ***Advanced precision and performance***

- New benchmark in optical systems combines high resolution and high frame rate to achieve superior performance
- Ground-breaking new 800 dpi sensor captures 4.7 megapixels every second, measuring even the smallest movement
- [Quick Switch Program Selector](#) moves you between active documents and programs with one touch
- Sleek contoured shape fits left and right hands
- Never use the scroll bar again with a high-precision scroll wheel that speeds you through documents

### **MX™ Optical Engine Maximum Performance Specifications**

The MX Optical Engine has been designed to offer you the best performance when you really need it. It follows your every movement, even the fastest one. It scans a larger area than other optical sensors and analyses more information for smoother tracking, on more surfaces.

- Image Processing: 4.7 megapixels/sec
- Resolution: 800 dpi
- Acceleration: 10g
- Speed: 1 metre/sec

### **Get more from your mouse with easy-to-install MouseWare® software:**
