**Precision engineered,
even where it doesn't show...**

**Details on the back side hint at the engineering
innovations WM enclosures incorporate, inside and out!**

Engineered to make the small stuff matter.

Rittal WM stainless steel enclosures protect critical equipment in harsh environments under the most demanding conditions by paying attention to design elements like blind nuts on the back side that insure a snug fit and make flush-to-the-wall installations a snap.

When precision instruments, measuring tools and critical controls need protection from the elements, inside or out, Rittal's durable, one-piece, space-saving wallmount designs are easy to install and maintain.

Stainless steel enclosures are available in a variety of shapes, sizes and configurations for use in the most demanding environments with a range of critical protection ratings – from UL Type 12 to Type 4X – and for use in sensitive areas in a variety of industrial settings.

Enhancing the lineup of standard wall-mounted enclosures are slope top units and specialized designs incorporating flange-mounting configuration featuring a universal disconnect cutout. The slope top models have a 20-degree overhanging sloped roof to accommodate a variety of specialized installations.

Backed by the Rittal System approach to accessories and support, there's a WM stainless steel unit ready to take on your challenges.

Standard features include:

- 304 and 316L stainless steel construction
- Blind nut mounting
- Secure locking system
- Foamed-on gaskets
- Zinc-plated mounting panels
- Protection ratings for the most demanding conditions

Detailed drawings are available at www.rittal.us.

WM Stainless Steel Enclosures

Single Door, Disconnect, Slope Top

Stainless Steel UL Type 12, 3R, 4, 4x Single Door—Type 304, 316L

Configuration:

- One-piece enclosure body
- Left-hand hinge
- Slotted head insert
- Single door WM less than 20" high have one ¼ turn latch
- Single door WM 20 - 40" high have two ¼ turn latches
- Single door WM enclosures greater than or equal to 42" high have an L-Handle
- Includes mounting panel
- Wall-mounting blind nuts
- Foamed-in-place gasket

Finish:

- Enclosure and door:
#4 Brushed
- Mounting panel:
Zinc-plated carbon steel

Material:

- Type 304 stainless steel
- Enclosure and door:
 - 12" H x 12" W – 24" H x 20" W:
16 ga body/ 16 ga door
 - 24" H x 24" W – 36" H x 24" W:
16 ga body/ 14 ga door

- 36" H x 30" W – 60" H x 36" W:
14 ga body/ 14 ga door

Protection rating:

- Single door enclosures:
 - UL/cUL Type 12
(IP 55 to EN 60 529/10.91)
 - UL/cUL Type 3R
(IP 66 to EN 60 529/10.91)
 - UL/cUL Type 4X
(IP 66 to EN 60 529/10.91)

Stainless Steel UL Type 12, 3R, 4, 4x Disconnect—Type 304, 316L

Configuration:

- One-piece enclosure body
- Left-hand hinge
- Universal disconnect cut-out
- 2 or 3-point latching L-handle
- Includes mounting panel
- Wall-mounting blind nuts
- Foamed-in-place gasket

Finish:

- Enclosure:
#4 Brushed
- Mounting panel:
Zinc-plated carbon steel

Material:

- Type 304 stainless steel
- Enclosure and door:
 - 14 ga body/ 14 ga door except for
24 x 26 - 16 ga body/14 ga door

Protection rating:

- UL/cUL Type 12
(IP 55 to EN 60 529/10.91)
- UL/cUL Type 3R
(IP 66 to EN 60 529/10.91)
- UL/cUL Type 4
(IP 66 to EN 60 529/10.91)
- UL/cUL Type 4X
(IP 66 to EN 60 529/10.91)

Stainless Steel UL Type 1, 12, 3R, 4, 4x Slope Top—Type 304, 316L

Configuration:

- One-piece enclosure body
- Left-hand hinge
- 20° overhanging sloped roof
- Slotted head spring loaded insert
- Single door WMS less than 20" high have one ¼ turn latch
- Single door WMS 20 - 40" high have two ¼ turn latches
- Single door WMS enclosures greater than or equal to 42" high have an L-Handle
- Includes mounting panel
- Wall-mounting blind nuts
- Foamed-in-place gasket

Finish:

- Enclosure and door:
#4 Brushed
- Mounting panel:
Zinc-plated carbon steel

Material:

- Type 304 stainless steel
- Enclosure and door:
 - 16" H x 12" W – 24" H x 20" W:
16 ga body / 16 ga door
 - 24" H x 24" W – 30" H x 24" W:
16 ga body / 14 ga door
 - 30" H x 30" W – 60" H x 36" W:
14 ga body / 14 ga door

Protection rating:

- UL/cUL Type 1, 12, 3R, 4, 4X
UL file #: E170282

Understanding the Part Number

WM Stainless Steel Enclosures

Stainless Steel UL Type 12, 3R, 4, 4x Single Door — Type 304, 316L

Rittal's WM enclosure sets the standard for maximum use of space and ease of installation — WM compact enclosures can be used for virtually any application. A secure locking system, foamed-on gasket and knife-edge perimeter ensure NEMA protection ratings. Features include a one-piece body of durable 304 or 316L stainless steel rated to stand up to the harshest environments.

¹⁾ To order mounting panel in stainless steel add S6 to the end of the part number.

Note: To order WM wallmount enclosures in Type 316L stainless steel replace N4 ending with N6 (extended delivery times).

Stainless Steel UL Type 12, 3R, 4, 4x Disconnect — Type 304, 316L

Rittal's WM FMD enclosure sets the standard for maximum use of space and ease of installation. Rittal's WM compact enclosures can be used for virtually any application. NEMA protection ratings are ensured through a secure locking system, foamed-on gasket, and knife-edge perimeter. Features include a body constructed of cold rolled steel, steel doors, and included mounting panel.

WM Stainless Steel Enclosures, Accessories

Stainless Steel UL Type 1, 12, 3R, 4, 4x Slope Top—Type 304, 316L

Rittal's innovative slope top wallmount enclosure is designed for food/beverage and pharmaceutical applications or any environment where sanitation concerns require frequent washdowns. The 20° overhanging sloped roof prevents standing water from accumulating on top of the enclosure and door opening.
