

Datasheet

702-42 EX

Technical Specifications:

Sensitivity: 300 Gauss, (0,3 mT)

Power supply: 2 x AAA (LR03) batteries (included)

Altitude: < 2000 m

RH: 80% @ 30oC, 50% @ 40oC

Operating temperature: -10o - +50oC

Weight: 40 g

Dimensions: 152 mm x Ø max 17 mm

Functional check: Test magnet included

General Features:

- EEx ia IIC T4 certified.
- Powerful red light in the tip to indicate presence of a magnetic field.
- Easy to use.
- Solenoid valves in pneumatic and hydraulic control equipment can easily be tested.
- Test relays with coils and electrically controlled solenoid valves in all types of vehicles and machines.
- Test solenoid valves when servicing oil burners.

Magnetic Field Indicator

The Magnet Stick is an instrument for testing the presence of magnetic fields. By simply holding the tip of the instrument near the test area, it indicates a magnetic field by glowing. The test lamp responds to all kinds of magnetic fields, from alternating current to direct current and permanent magnets.
