

Accuratus Monster 2 Early Learning Keyboard

Meet the Monster 2 range of oversized keyboards from Accuratus. Designed specifically for young children the Monster 2 Early learner is the perfect entry into computing with large oversized keys grouped in different colours and a special printed case making learning easy and fun.

The Accuratus Monster 2 Early Learning Keyboard also has a detachable wrist pad to make the early stages of typing much easier. The keyboard layout is based on a standard UK keyboard layout so when a child grows up and progresses to an adult board the keys will be in all the normal places. Maybe you just want a keyboard with big keys because they look cool whatever the reason these tough keyboards are precise and a joy to use.

The Monster 2 Keyboard comes with a USB interface making connection easy. Pure white case with modern gloss piano white beveled edge and special fun printed case on the keyboard and wrist pad - making learning easy and fun Large 1 inch square keys (24mm)

There are mixed and brightly coloured keys on the Accuratus Monster 2 with vowels, consonants, numbers, special characters and normal typing keys. The text is designed to be easy to learn with the whole words written on the keys rather than the abbreviation (tab capitals shift spacebar enter and backspace) so that you can easily find these keys if you are unfamiliar with a keyboard.

Designed with spill holes in the base of the keyboard so that any minor spillages can escape without damaging the keyboard membrane. This Monster 2 is ideal for any young child who is learning how to type.
