

# COBA Guard Hard Floor Protector

COBA Guard Hard Floor Protector is a flame retardant self-adhesive carpet protection film that has been designed for hard floor surfaces such as wood or ceramic tiles. The film is reverse wound on the roll meaning that it can be laid rapidly by hand for small rooms and staircases, or with the COBA Guard Applicator for larger areas. COBA Guard lies flat – reducing the risk of tripping. Floors are left pristine as the film peels off leaving no residue.

- Ideal for protection when painting and decorating
- Also used when maintenance work is carried out to avoid a soiled floor
- Protects newly laid hard floor surfaces when further building work is required
