

Datasheet

RS Pro Lighting Controller Detector, Microwave, Ceiling, Wall mount, 220 to 240 V ac

RS Stock No: **500-3880**

Product Details

RS Pro lighting controller detector has dual sensors for detecting ambient light and physical movement. The adjustable sensitivity and time delay allows optimum settings for many different applications. It offers a detection range of 60 x 25 m. This device uses microwave sensor for efficient working. It is suitable for applications such as warehouses, sports halls, churches etc.

Features and Benefits

- Sealed enclosure with a stainless steel detachable bracket for mounting to wall or ceiling with an adjustable angle
- Simplified installation with integral sensor and volt free switched output
- Internal photocell (adjustable) over ride when sufficient daylight is present, if required an external twilight switch can also be connected
- Adjustable sensitivity and time delay allow optimum settings for many different applications
- Maximum detection range: Axial - 60 m, lateral - 25 m
- IP66 rated

**Specifications:**

Controller Type	Detector
Height	60 mm
Length	170 mm
Mount Type	Ceiling, Wall
Range	60 x 25 m
Sensor Type	Microwave
Time Delay	15 s to 30 min
Voltage Rating	220 to 240 V ac
Width	115 mm
