## FT50CM Tape Measure

RS Stock number [690-0707](#)

### Description:

The practically unique longitudinal design of this tape not only makes it conveniently shaped, it also makes reeling it out over great distances incredibly easy.

The high grade 50 metre / 165 foot steel blade will not stretch and is graduated in both metric and imperial measurements for convenience.

Unique pistol grip design measuring tape.

Compact size, fits in a standard tool box.

Non-stretch steel tape.

Attachment ring, with zero marked on the inside of the ring.
