

## Part Number : TDGL006 - chipKIT Network Shield

The chipKIT Network Shield expands the capabilities of the chipKIT Max32 to take advantage of all the advanced features of the PIC32MX795 MCU. It adds 10/100 Ethernet, USB and CAN communications plus additional features.

- 10/100 Ethernet
- USB Host, Device, OTG
- Dual CAN transceivers
- Dual I2C connectors
- 245kbit EEPROM
- 32.768 KHz oscillator for RTCC

Note: Requires chipKIT Max32 (TDGL003)
