

DT1200

Termination enclosure

- **Weatherproof to IP68**
- **Machined aluminium casting**
- **Mounting threads for terminal block**

An enclosure which can be used with the Cynergy3 range of vertically mounted float switches which have an M16 mounting thread.*

Machined from an aluminium casting, the termination enclosure is weatherproof to IP68 when fitted with the correct gland, and can be fitted with a terminal block using the 3 x M4 mounting holes in the base.

*Note - the termination enclosure wall thickness is 5mm which will reduce the allowable maximum tank wall thickness accordingly.
