User Information

The Super Glove range of Industrial Gloves offers a good choice of protection for many industrial applications. For advice on glove suitability for specific substances or application, please contact your distributor.

Ideal for short term or one-off uses where sensitivity is required and strength is not.

For Minimal Risk only. Not suitable for use with irritant, toxic or corrosive chemicals.

Food Contact

Digit polythene gloves have been tested in accordance with the Statutory Instruments SI 1987 No 1523 and SI 2000 No 3162. They are suitable for use with all food categories in situations of short term, repeat contact and within the temperature range 5°C to 40°C.
