

LOCTITE®

Dispensing Equipment

Henkel

Selection Table

Loctite® products are used for a wide variety of bonding, threadlocking, retaining, gasketing and sealing applications.

For users requiring precise and automated dispensing, Henkel has developed equipment especially designed for economical, fast, precise and clean application of adhesives and chemical sealants as beads, drops or continuous rings. Henkel provides a complete line of dispensing equipment, ranging from simple hand-held dispensers to fully automated systems. Ultraviolet curing system to suit application needs are also available.

Loctite® One Component Adhesives/Sealants:

Henkel offers the appropriate mixing nozzle for each product & equipment:

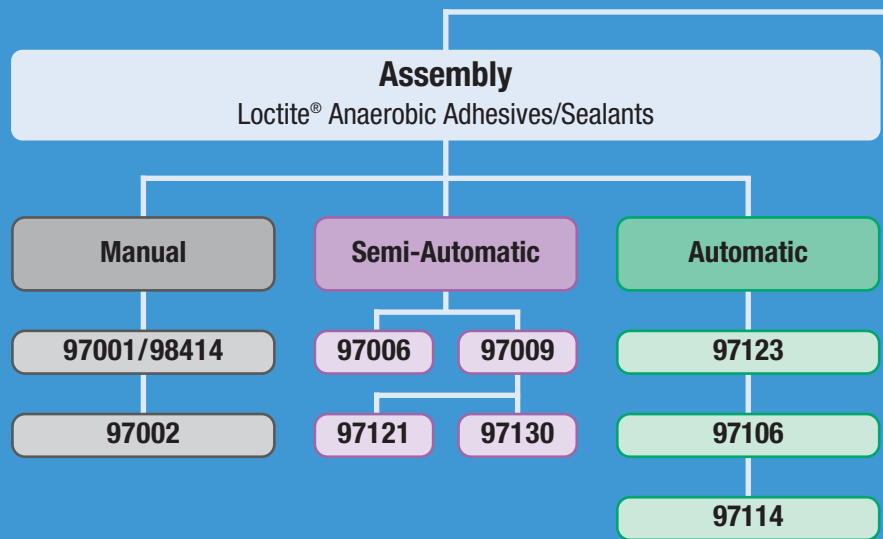

Henkel can provide you with a large choice of needles and accessories to optimise your application:

This is a selection from our extensive range of equipment. If you need more information, please contact us for a copy of our Equipment Sourcebook.

Which Loctite® product are you using?

Loctite® One Component Adhesives/Sealants

97001/98414

Peristaltic Hand Pump

- Mounts easily on any Loctite® 50 ml (98414) and 250 ml (97001) bottle, converting the bottle into a portable dispenser
- Controlled amount of adhesive
- 98414 comes with a stand to stabilise 50 ml bottle

97002

300 ml Cartridge Pneumatic Dispenser

- Dispenses all Loctite® products packaged in a 250 ml tube or in a 300 ml cartridge
- Integrated pressure regulator allowing user to control the flow rate
- Quick pressure relief valve

98548

Volumetric Dispenser

- For low viscosity, non-thixotropic adhesives
- For precise dosing and controlled flow rate
- Usable as manual or semi-automatic workstation
- No air source required

97006

Precision Syringe Dispenser – Digital

- Accurate dispensing of viscosities from water-thin to paste-like
- For products packaged in 10, 30, 55, and 300 ml syringes
- Delivers precise dots in a timed mode, or beads or potting, in a continuous mode

97009

Integrated Semi-Automatic Dispensing System

- Combines both a controller and reservoir into a single unit
- Provides digital timing control
- Can be actuated either by a footswitch or fingerswitch
- Provides empty and end-of-cycle signal

97106

98013

97121

Pinch Valve Applicator

- Provides excellent compatibility with all Loctite® products including cyanoacrylates
- Dispenses small drop sizes of low to medium viscosity products
- Can be either mounted to the reservoir or to the point of application

97130

ErgoLOC Valve

- Ergonomic design provides comfortable hand application control
- Eliminates hand fatigue
- Suitable for small drop sizes up to beads of low to medium viscosity products including Instant Adhesives

97106/97123

Reservoir 0,5l / Single Channel-Automatic Controller

- Fully programmable independent controller (97123) with PLC interface
- Precision pressure regulator for reliable dispensing
- Integrated solenoids for cost and space effectiveness
- Level sensor in the tank (97106) with level indication at the controller

97114

Stationary Applicator Valve

- Easy exchange of actuator and shut-off valve modules
- Contains adjustable suck-back
- Eliminates product stringing
- Used for stationary and advancing application

98013

Cyanoacrylate Dispense Valve

- Diaphragm valve with high resolution stroke adjustment
- No-drip dispensing
- For low to medium viscosity cyanoacrylate adhesives

97055

UVALOC 1000

- For UVA, UVC and visible light curing
- Closed system with safety door locking and programmable shutter system

98591

Loctite® 7700 Hand Held LED Light Source

- For many UV/visible light cure products
- Instant on/off performance and consistent light output
- Heating of assemblies virtually eliminated

96001

50 ml Dual Cartridge Manual Applicator

- Hand-held, manually operated mix dispenser, provides a convenient, cost-effective method of applying product with minimal waste
- Compatible with 1:1, 2:1 and 10:1 ratio products
- Made of impact resistant plastic

96003

200 ml Dual Cartridge Manual Applicator

- Hand-held, manually operated dispenser
- Provides a convenient, cost-effective method of applying product with minimal waste
- Fits 1:1 and 2:1 mix ratio products
- Mix nozzles are sold separately
- Made of die-cast aluminium

983437/983439

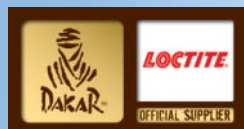

Dual Cartridge Pneumatic Applicator

- Hand-held, pneumatically operated meter mix applicator
- It provides a convenient, cost-effective method to apply product with minimal waste
- The dispensers are compatible with 1:1 and 2:1 mix ratio products
- 983437 fits 200 ml dual cartridges
- 983439 fits 400 ml dual cartridges

Product Overview

Product No.	Order No.	Product Description	
96001	267452	50 ml Dual Cartridge Manual Applicator 1:1, 2:1	
96003	267453	200 ml Dual Cartridge Manual Applicator 1:1, 2:1	
97001	88631	250 ml Peristaltic Hand Pump	
97002	88632	300 ml Cartridge Pneumatic Dispenser	
97003	135546	Integrated Manual System 1 bar, 0–15 psi	*
97004	135547	Integrated Manual System 7 bar, 0–100 psi	*
97006	88633	Precision Syringe Dispenser	
97009	215845	Integrated Semi-Automatic Dispensing System	
97055	805741	UVALOC 1000, Chamber Version	
97042	476898	Pneu. Handgun 50 ml 1:1, 2:1, 10:1	*
97106	135554	0.5l Reservoir with Dual Level Sensor
