RS Pro 50.8mm Silver Braided Monel Cable Sleeve

Product Details

Knitted Wire Mesh Tape

A two-ply flattened knitted mesh cylinder.

Manufactured from 0.11 mm diameter Monel (Nickel-Copper alloy) wire

Good corrosion resisting properties

Designed to wrap easily around cables and harnesses (50% overlap is recommended on each turn for optimum performance)

Under rising temperatures will not warp away from the surface covered

When applied correctly, the mesh will reduce the 'corona' effect of discharge in cable assemblies and harnesses

Supplied on reels 15.24m x 50.8mm

Shielded Braided Sleaving
