

Functional design.

For every need.

In kitchens, living rooms, children's rooms or studies, intelligent LED luminaire systems from OSRAM provide optimum light wherever they are used and look great with their modern clear styling. They are individually adjustable, easy to install and can be expanded at any time as required. And with SPYLUX® and NIGHTLUX®, OSRAM has added two energy-saving mobile LED luminaires to its portfolio for greater safety and security in the dark.

LEDstixx®

The new OSRAM LEDstixx® is a decorative and unusual form of LED lighting that will delight fans of good design. With its many fixing options it can provide light wherever special accent lighting is required. Sideboards, flower arrangements, favorite pictures or candlelight dinner tables are just some of the things that the innovative light emitting diodes of LEDstixx® can highlight. Always the right light in the right place.

- Flexible fixing plate for variable use
- Practical adhesive surface or drill holes
- Horizontal or vertical alignment on walls or objects
- Four white LED lamps
- High-quality aluminum casing

POWERstixx™

The new mains operated OSRAM POWERstixx™ made of anodized aluminum can be individually tailored in no time at all thanks to its modular design. An extensive set of modules means that luminaires can be created for almost any lighting task. The clear styling and high-quality design of the luminaire and the bright energy-

saving Golden DRAGON® Plus LEDs make a brilliant combination. The set comprises 3 × POWERstixx™ that can be expanded with the Add-on Kit. The Connector Set is the key to even more flexible forms, and the Pendant Kit converts the POWERstixx™ into an attractive pendant luminaire.

QOD™

The stylish square QOD™ surface-mounted LED luminaire provides a large amount of light in small spaces. Thanks to the ultra low-profile design (only 8 mm thick) it is the right choice for small spaces and will fit into any surroundings. The distribution box

included in the kit has an integrated switch and provides a simple way to expand the system with the Add-On Set to a maximum of 5 light points.

NIGHTLUX®

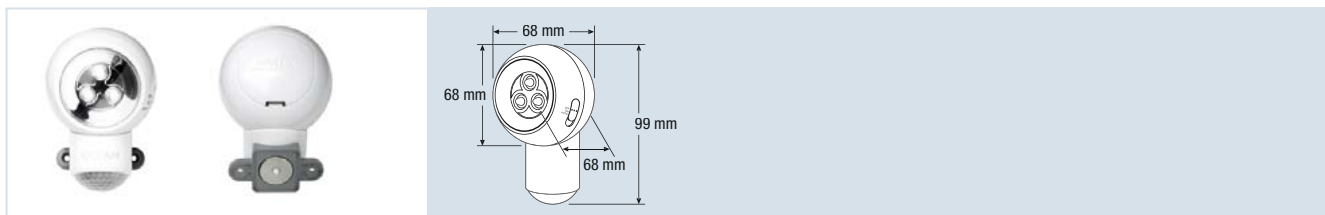

NIGHTLUX® – the easy-to-install night light without cables or plugs, provides light in dark corners and on steep staircases. The design of NIGHTLUX® makes it ideal particularly for illuminating the lower third of a room. When mounted at hip height its three LED lamps illuminate everyday obstacles and therefore cut down the risk of accidents. After 10 or 60 seconds it automatically switches off again.

- Dustproof and splashproof, suitable for indoor and outdoor applications
- Easy to install with screws, magnets or adhesive strip
- The LED luminaire can be swiveled up and down through an angle of 60 degrees

SPYLUX®

SPYLUX® – the cable-less battery operated multifunction luminaire with bright LED light for greater safety and security, indoors or outdoors. The integrated motion sensor reacts to movement and people in a radius of up to four meters and is therefore ideal for outdoor lighting. And if you don't have a flashlight to hand you can simply take SPYLUX® out of its holder and use this small luminaire as a portable light for dark places such as basements and attics.

- Battery operated dustproof and splashproof luminaire
- Can be mounted with screws, adhesive strip or magnet
- Rotating head for versatile use
- Can be removed from the holder for use as a portable light
- Integrated motion sensor
