

## Solvent cleaner for industrial adhesives

### SPECIAL BLEND Adhesive Cleaner (SB 12)

#### FEATURES/BENEFITS:

<b>Powerful</b>	Removes cured & semi-cured adhesives including hot melts
<b>Versatile</b>	Can be used manually, in dip tanks or in ultrasonic systems
<b>Substrate Compatible</b>	Suitable for use with all metals and some plastics & polymers
<b>Non-Chlorinated</b>	Contains no chlorines or aromatic hydrocarbons
<b>Low Vapour Pressure</b>	Does not evaporate readily to atmosphere

#### USE:

Used neat at ambient temperature by immersion or direct application by brush. After removal of contaminant rinse surfaces with water or wipe dry.

#### APPLICATIONS:

Removes cured and semi-cured adhesives, including hot melts, from floors, machinery, tools and equipment. For use in dip tanks, rag wiping and ultrasonic cleaning processes.

#### PRECAUTIONS:

*For further information see MSDS*

#### SPECIFICATIONS:

Form ..... Liquid  
Colour ..... Colourless  
Odour ..... Sweetish  
Melting Point..... Undetermined  
Boiling point..... 171 °C  
Flashpoint: ..... 21-55°C  
Density (20 °C) ..... 0,94 g/cm<sup>3</sup>  
Miscibility in water ..... Slightly soluble  
pH (20 °C) ..... Not applicable
