PANTHER XM-L

The standard PANTHER model has now been upgraded with the latest LED technology (XM-L) increasing the running time to 5hrs on full and 10hrs on half power. The unique deep dish reflector enables maximum distance to lumen ratio achieving a 1000m beam from only 1000 lumens; it's also been upgraded to Li-ion giving the unit a massive weight reduction of 2.6kg! Now only 0.9kg it is our lightest in the range and offers exceptional value for money.
