Pallet Wrap Dispenser, 500mm roll

RS Stock number [183947](#)

Description

- A box of 6 rolls of clear polyethylene film.
- Each roll of food-grade quality stretch film complies with the food and drugs association regulation 177, 1520 making it ideal for all stretch wrapping applications.
- These handles are to wrap pallets or collate, bundle and secure almost anything with pallet stretch film.
- Blown film is easier to apply by hand tensioner as it requires less stretching to cling to the pallet tightly due to its "sticky" qualities.
- Cast film dispenses with less noise but does require more tension to wrap tightly.

Features

- Rolls of 400-500mm fit
- Cores of 38/50/78 mm can be used
- Robust construction at a budget price
- Twist grip handle for tension control
- Length of film per roll: 300m, thickness: 20 micron
