

**JAMES WALKER**

HIGH PERFORMANCE SEALING TECHNOLOGY

# WALFLON JOINT SEALANT

## Walker's versatile gasket material

**100% PURE PTFE IN A UNIQUE EXPANDED FORM**  
- soft, compliant and conforms to irregular surfaces

**RESISTANT TO MOST CHEMICALS AND  
CORROSIVE ENVIRONMENTS**

**SUITABLE FOR USE OVER A WIDE  
TEMPERATURE RANGE**

**EASY TO USE - supplied with a  
self-adhesive backing to ease fitting  
on vertical or overhead surfaces**

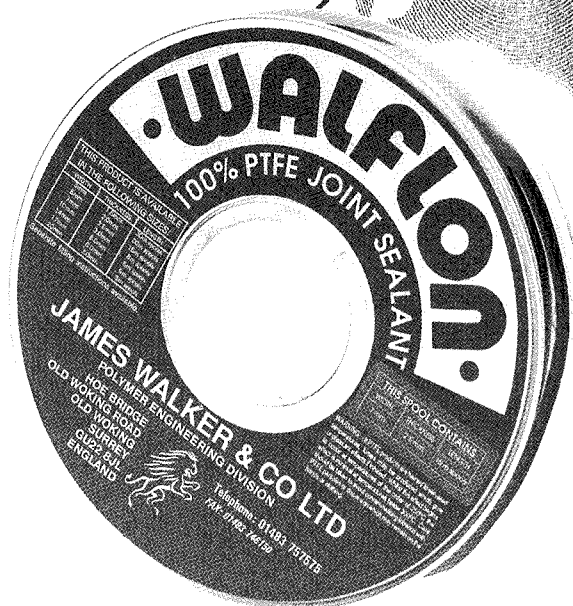

**MAINTENANCE EXPEDIENT**  
- reduces downtime costs

**SUITABLE FOR USE IN MANY  
INDUSTRIES**

**ECONOMICAL**

**UNLIMITED SHELF LIFE**

**AVAILABLE IN A  
VARIETY OF STANDARD  
SIZES AND SUPPLIED IN  
HANDY PACKS**

# WALFLON JOINT SEALANT

WALFLON joint sealant is manufactured from a unique expanded form of 100% pure PTFE.

Expanded PTFE is soft and pliable, yet tough and strong. The nature of expanded PTFE enables WALFLON to lend itself to be used on flanges of all sizes and shapes and therefore constitutes an ideal stop-gap measure for most gasket failures, thus reducing downtime costs.

The virtually inert nature of PTFE means that WALFLON can be used to seal most fluids without the risk of contamination.

WALFLON is capable of withstanding pressures up to 140 bar and temperatures ranging from -200°C to +250°C.

WALFLON is available in a range of standard sizes to suit most requirements.

## Supply Details

NOMINAL SIZE (mm)		SPOOL LENGTH (m)	RE-ORDER No.
WIDTH	THICKNESS		
3	1.5	30	WM - 000036
5	2	20	WM - 000052
7	2.5	15	WM - 000079
10	3	8	WM - 000109
14	5	5	WM - 000141
17	6	5	WM - 000176
20	7	5	WM - 000206

N.B. When ordering, please quote re-order number

**HEALTH WARNING:** If PTFE products are heated to elevated temperatures, fumes will be produced which give unpleasant effects if inhaled. Whilst some fumes are emitted below 300°C the effect at these temperatures is negligible. Care should be taken to avoid contaminating tobacco with PTFE particles or dispersion which may remain on hands or clothing.

Health & Safety Data Sheets are available on request.

Information in this publication and otherwise supplied to users is based on our general experiences and is given in good faith, but because of factors which are outside our knowledge and control, and affect the use of products, no warranty is given or is to be implied with respect to such information. Specifications are subject to change without notice. Statements of operating limits quoted in this publication are not an indication that these values can be simultaneously applied.
