

RS Household Rubber Glove Blue

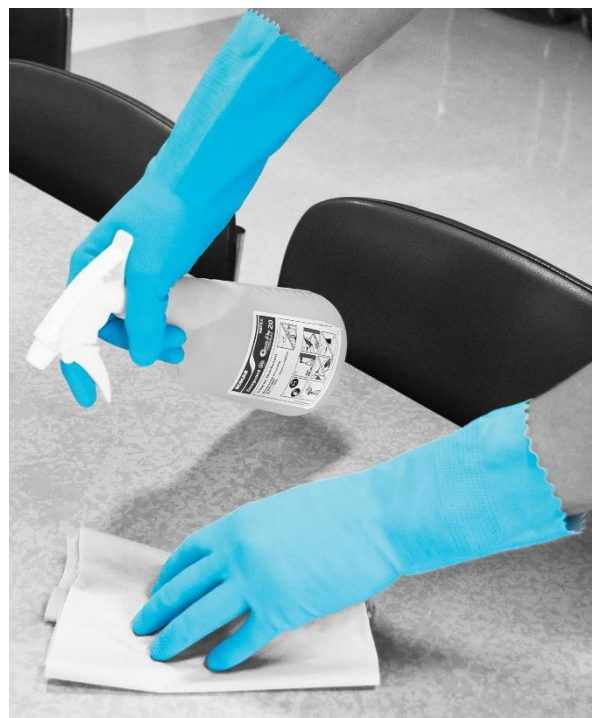

ENGLISH

A lightweight rubber glove with a cotton flock lining. This natural rubber glove is highly flexible and dextrous. It is anatomically shaped and tapered at the wrist for a more comfortable and ergonomic fit. Handling ability is greatly enhanced by the slip resistant pattern on the palm and fingers, increasing the level of grip in both wet and dry conditions. Its anatomical shape and flexibility minimise hand fatigue, and the soft flock lining absorbs perspiration keeping the hands cooler for longer. The blue Swift Household™ has been tested in accordance with EN1186 making it suitable for food contact, providing an alternative to a disposable.

Typically used for:

- Cleaning & Janitorial
- Kitchen Work
- Local Authority Work
- General Handling
