Compact water-proof wire-to-wire connector,
with the use of the 025 terminals and the solid
wire-sealing rubber.

Double-leaf construction

Superior contact performance is provided by the double-leaf construction, consisting of the main leaf and the assist leaf.

Housing lances

The contact retention lances on the resilient housing allow the confirmation of contact lock-in for easy and secure insertion.

Inter-housing lock

This inter-housing lock secures the plug to the receptacle and prevents accidental disconnection. The lock protected and is not affected by external forces that might result from the routing of wires.
