|--------------------------|--|
| Notification | |
| Product Code | HD-SP204 |
| Short Description | 4 port HDMI splitter |
| Full Description | <p>The HD-SP204 is a compact unit which allows you to connect the output from a single High Definition source to multiple displays. For example, a set top box, DVD player or game console to four separate HDMI equipped displays. The HD-SP204 is an HDMI splitter with 4 outputs. It distributes one input into the four identical outputs simultaneously. Each splitter unit's output can achieve a long distance transmission of no more than 15 metres. When two or more products are cascaded, they can create a larger distribution and longer length. The distance can be achieved by up to 5 metres before the splitter and 10 metres after.</p> |
| Extra Information | <p>Specification: Distribution: Four identical HDMI outputs. Cascaded: Large distribution achieved by cascading the HDMI Amplifier Splitter. HDCP Compliant. HDMI 1.3b Compatible. FCC CE Certified. Devices with DVI output are not supported due to the lack of signal control.</p> |
