# RS- 8188048

## Ball Valve Lockout, 10-32mm

### Standard features:

- 8188044 Clamp's over the lever – preventing the valve from operating and can be installed in open and closed positions.
- This can be installed on most of the ball valves available internationally.
- They prevent valve handle from being turned on.
- The strong polyurethane plastic make them resistant from cracking & abrasion as well as from extreme temperature & weather conditions too.
- Non-conductive.

### Technical data:

- Dimensions: 150 X 76 X 95 mm
- For 3/8" to 1.1/4" ball valve dia.
- For maximum handle length of 7.5"
- Weight around 160 gm

### Package includes:

- Packed single unit in PVC clear polythene bag.
