

the NC10 Netbook

Even though it is one of the world's lightest netbooks in its 10.2" class, weighing just 1.33kg with a powerful 6 cell battery, the NC10's innovative design is packed with the latest technology for maximum mobility and productivity. It also incorporates a range of practical features, like a normal-size, ergonomic notebook PC style keyboard, to simplify life on the move.

class leading craftsmanship

A class leading design built to fit in with people's fast-paced and digitally interconnected lives, so you can do even more on the move – and still look good! The superb look and feel of its slim and elegant chassis is accentuated with a choice of colours and haptic styling.

Packed with multimedia features, Windows XP Home Edition aims to unlock the full potential of your netbook. Designed exclusively for home computing, Windows XP Home Edition puts the exciting experiences of the digital age at your fingertips. From digital photos, music, and video to building a home network, Windows XP Home Edition brings you into the digital age with ease.

ultra portability

The NC10 is one of the lightest netbooks in its 10.2" class, weighing just 1.3kg*, but packed with the latest communications technology for maximum mobility and productivity on the move. So you can carry less, but do more.

*1.33kg is based on 6 cell battery

video-conferencing

An integrated 1.3 mega pixel digital motion camera makes it easier than ever to keep in touch with friends and family, using video-conferencing or live messaging. The camera combines the resolution and image quality of a still camera with the sustained high frame rates of a video camera.

Intel® Atom™ processor

Incorporating Intel's smallest and lowest power processor, the Intel® Atom™ processor, which is specifically designed to deliver an amazing Internet experience using netbooks. Based on an entirely new micro architecture, the Intel® Atom™ processor increases energy efficiency to extend battery life, while delivering enhanced mobile performance and increased system responsiveness.

fully featured for simple data sharing

Enables simple data sharing with a host of advanced connectivity tools, including a 3 in 1 memory card reader (SD, SDHC, MMC), 3 built-in USB ports, and Bluetooth 2.0+EDR* (Enhanced Data Rate), so you can easily transfer pictures, movies and data to and from virtually any modern camera, peripheral or audio-visual device.

*Based on factory specifications

10.2" widescreen LED display

The NC10's 10.2" widescreen display is optimised to deliver a seamless visual experience on netbook and by using LED technology means that the screen is thinner, up to 33%

'normal' keyboard

brighter, and uses much less power than traditional LCD screens. Even the durability of the system is better, because there are fewer breakable parts.

anti-bacterial keyboard

Incorporates a normal-size, notebook PC style keyboard, for easy typing. Its ergonomic design and optimised key spacing make working and communicating a much more pleasurable and productive experience, with fewer errors and faster typing speeds.

Uses Silver Nano Technology to coat the keyboard with incredibly small, nano-sized silver ion powder, which makes it impossible for bacteria to live and breed. So, 99.9% of bacteria are successfully eliminated within 24 hours and the netbook remains bacteria free for even longer, creating a more hygienic personal computing environment.

long battery life

Delivers longer battery powered performance of up to up to 7 hours* using the 6 cell option, independent of any power supply, for maximum freedom and mobility. This vastly improved battery life is guaranteed by the LED display and optimised processing performance of the Intel® Atom™ processor coupled with SAMSUNG's class leading engineering. So you're always ready to go anywhere and do anything.
