RS Pro 3.2 mm Straight Chisel Soldering Iron Tip for use with DS80 Digital Soldering Station

RS Stock No: **665-4811**

Product Details

RS Pro 3.2 mm straight chisel soldering iron tip is suitable for use with DS80 digital soldering station. It provides a cost-effective entry level soldering station for the intermittent/low volume user. The hand piece and tip is designed to enable rapid heat recovery required for lead free soldering.

Features and Benefits

- 3.2 mm straight chisel soldering iron tip
- For use with DS80 digital soldering station
- Provides a cost-effective entry level soldering station for the intermittent/low volume user
- Designed to enable rapid heat recovery required for lead free soldering
- Operating temperature range of +150 to +450 deg C

Specifications:

For Use With	DS80 Digital Soldering Station
Tip Shape	Straight Chisel
Tip Size	3.2 mm
